

## Connectorized Cable

### Connectorized Cables (25 pair) Non-Plenum

25 Pair Connectorized Cables

Prewired 25 pair connectorized cables are used to rapidly complete telephone installations or to rearrange key telephone stations. The connectors are standard 50-pin male or female telephony connectors with a removable dust cover to protect the gold plated contacts from damage or oxidation. The insulated conductors are color-coded with the standard telephone colors and are twisted into pairs with varying lay lengths to minimize crosstalk. The cable is riser rated and is available in gray Level 1 or Category 3. Each cable comes with separately packaged accessories, including two alternate screw lengths and one u-shaped, spring retainer clip per connector.

- FCC part 68 compliant
