The PREMIER 7270 two-line with speakerphone continues the same sleek style of the PREMIER Series 7000 family. The PREMIER 7270 is a natural choice for hotel or business installations. This set meets ADA receiver volume control requirements, includes a data jack for laptop hookups, large dial pad, 90-volt message waiting light, a speakerphone with volume control and line powered operation to eliminate the need for batteries or AC adapters. A long-lasting lithium battery safeguards stored numbers in the event of phone service interruption.

The PREMIER 7270 is perfect in guest rooms catering to busy business travelers. When considering sophisticated call handling, think PREMIER 7270.

Every PREMIER Series 7000 telephone is quality-assured—backed by a two-year limited warranty. PREMIER 7270 telephones undergo rigorous lab testing before earning the PREMIER brand. They are also FCC registered, Industry Canada certified and UL listed. This telephone meets ADA receiver volume control requirements.

The PREMIER Series 7000 family of telephones ranges from basic single-line to two-line speaker telephones with memory. If you're looking for a telephone that is loaded with user-friendly features, look to PREMIER Series 7000.
