

## NaturChem, Inc.

### HY-END Bifen ITP®

### HY-END Bifen S

#### Fire Ant Control that is: Effective and Convenient.

**Effective** - HY-END Bifen controls Fire Ants where applied in and around telecommunication, power, utilities, and railroad systems equipment. The active ingredient Bifenthrin is the most effective product in the market today featuring the longest lasting residual control of insects in its class.

**Convenient** - The next generation of Fire Ant control is now available in convenient 4 oz packaging. Individual packages are shipped and stored in user friendly, waterproof buckets with 100 single application packets (4 bags of 25 packets) in each bucket. HY-END Bifen is also available in a 64 oz. shaker can with 8 cans per case.

## Applications

NaturChem's HY-END Bifen is labeled to be used for Fire Ant Control in and around the following locations:

- » Telecommunications equipment
- » Pad mounted transformers
- » Underground power cable splice boxes and vaults
- » Telephone pedestals and cables
- » A/C or air handling systems (around homes and commercial locations)
- » Traffic signal boxes
